

Due 2/15

WAVES GRAVITY AND FRICTION ASSIGNMENT

The following Assignment will have several choices to accomplish the task. You will first need to choose which part skill you will use.

Options: Pick one option:

1. Write an editorial article describing waves, gravity and friction. (2 pages)
2. Write a poem describing waves, gravity and friction. (1 page)
3. Design a game show where waves, gravity and friction are the main idea. (Video taped and ½ page written summary)
4. Construct and perform a dance about waves, gravity and friction. (video taped at least 5 minutes long)
5. Conduct an interview about waves, gravity and friction. (Video taped with Partners and must be 10 minutes long)
6. Compare and contrast waves, gravity and friction and their features. (Debate each, 3 pages long total)
7. Draw and design a poster using waves, gravity and friction. (Must be hand drawn in color on 11"x17" paper)
8. Relate a personal story describing waves, gravity and friction in our everyday life.

Each media must incorporate all of the following criteria.

- The energy of a wave friction and Gravity.
- Why waves, gravity, and friction are important.
- The difference types of waves.
- How waves friction and gravity affect us in everyday life.

Scoring.

10 points for use of bullet described above.

10 points for content correctness.

10 points for presentation of skill.
